

## V General Ledger Account Structure

The general ledger account (GLA) structure is the basic framework for CALSTARS. It provides a control mechanism for the accountability of assets, liabilities, and the investments of the state. Each account is expressed in broad terms. It is further refined by the subsidiary account and additional classifications that provide the data for internal and external reporting requirements and the legal requirements for appropriation accounting.

### ACCOUNT STRUCTURE

In CALSTARS, general ledger accounts use a 4-digit numeric code classified in the asset, liabilities, fund balance, expenditures (uses of resources), receipts (sources of resources), and memorandum account structure. The general ledger account structure is designed to provide accountability over the funds maintained by the state and to facilitate reporting.

The CALSTARS general ledger account structure is based on the statewide structure defined in the *Uniform Codes Manual* (UCM). The statewide structure uses three hierarchical reporting levels, with the highest level (Level One) being used by the State Controller's Office (SCO) for financial statement preparation. The second and third levels are used as a means of recording additional levels of detail below Level One. While CALSTARS records financial data at the lowest UCM level, it is not always done through general ledger accounts. For example, additional detail for the Level One General Ledger Account 9000, Appropriation Expenditures or Operating Expenditures and Expenses, is provided through the object code classification structure.

Some general ledger accounts included in CALSTARS, such as most of the accounts in the Special Agency Budgetary Accounts (6200-6299) series, are not specified in the UCM. These accounts provide additional financial processing and reporting capabilities.

### FILE SUPPORT STRUCTURE

Each general ledger account is supported by at least one, and in many cases several CALSTARS master files. The History File supports all general ledger accounts. The level of file support for eight of the files is shown for each GLA presented in Exhibit V-1.

The eight CALSTARS files listed in Exhibit V-1 are:

<b>AL</b> - Allotment	<b>GL</b> - General Ledger
<b>AP</b> - Appropriation	<b>GP</b> - Grant Project
<b>CC</b> - Cash Control	<b>OP</b> - Operating
<b>DF</b> - Document File	<b>SF</b> - Subsidiary File

## GENERAL LEDGER ACCOUNT DESCRIPTIONS

Each CALSTARS general ledger account is described in Exhibit V-1. The normal balance is shown in the "D/C" column following the account "Title" column. Where no balance is shown, there is a reference within the expanded "D/C" area and a "Description".

## SUBSIDIARY ACCOUNTING

The CALSTARS master files post additional general ledger data for many of the CALSTARS general ledger accounts. In some cases it is necessary to record subsidiary general ledger information. Subsidiary accounting may be performed by establishing subsidiary general ledger account numbers and posting the financial transactions using the Subsidiary GLA which also look-up the Level 1 GLA.

Two types of subsidiary accounting are required for CALSTARS general ledger accounts:

- ✧ **Specified general ledger accounts that record inter- and intrafund transactions.** The first four digits of the subsidiary account number is the UCM Fund code assigned to the other fund. For example, General Ledger Account 3100, Due to Other Funds or Appropriations, requires a subsidiary account for each fund that is owed (e.g., **0001** for General Fund, etc.).
- ✧ **Detailed accounts.** In certain cases, CALSTARS uses a summary account (i.e., a UCM Level 1 account) and the UCM requires a Level 2 account below the Level 1 GLA. In these cases, the first four digits of the subsidiary account contains the UCM Level 2 GLA. For example, the Level 1 GLA 1500-Due From Other Governments, requires a Level 2 subsidiary account for each governmental entity (i.e., GLA 1510 for the Federal Government, GLA 1540 for School Districts and GLA 1590 for Other Governmental Entities).

Refer to Exhibit V-1 for the GLA subsidiary account coding requirements.

CURRENT ASSETS													
1110	General Cash (in Agency Accounts with State Treasurer)	D		X			X					Shows cash collected by the agency and deposited or cash to be deposited in its general checking account for remittance to a fund in the State Treasury or refunded to payers. At least once each month receipts are disbursed (remitted) to the State Treasury. Receipts not due to the State are refunded to payers. At the end of the fiscal year an adjustment is made to this account for undeposited receipts, as described under GLA 1190-Cash on Hand.	
1115	General Cash Remittance In Transit	D		X	X		X					Shows cash disbursed (electronically remitted) by the agency to SCO and credited to the appropriate account by the SCO. After receiving notification by SCO that the cash has been deposited into the State Treasury and credited to the fund, the agency records a transaction to reduce the in-transit account balance.	
1120	Agency Trust Fund Cash (in Agency Accounts with State Treasurer)	D					X					Shows trust cash (such as Marketing Act trust, institutional trust, or departmental trust monies) deposited in agency accounts with the State Treasurer that are not remitted to a fund in the State Treasury. At the end of the fiscal year an adjustment is made to GLA 1120 for undeposited receipts as described under GLA 1190-Cash on Hand.	
1130	Revolving Fund Cash (in Agency Accounts with State Treasurer)	D		X	X		X					Shows cash advanced from an appropriation in a State Treasury fund for revolving fund purposes (see SAM Section 8100). The account balance remains the same during the year and will equal the sum of (1) cash on hand, (2) the centralized State Treasury system general checking account balances plus, (3) the Revolving Fund Receivables Ledger balance. In CALSTARS, detail office revolving fund accounting can be recorded during the current fiscal year in Fund 0998. If drawn from a fiscal-year appropriation, at the end of the fiscal year, the agency requests the SCO to return the advance to the State Treasury or journalize the advance as a return to the appropriation from which it was drawn and as a withdrawal from the subsequent fiscal year appropriation. At the end of each fiscal year the change and cash purchase funds and the undeposited receipts are reported in GLA 1190-Cash on Hand.	
1140	Cash in State Treasury	D			X		X					For funds that are accounted entirely by one agency or for the Federal Trust Fund (non-shared funds), this account shows the cash balance in the State Treasury to credit the particular fund. For funds that are not accounted for entirely by one agency (shared funds), this account shows the changes in cash flow during the year and is reclassified to GLA 5570-Fund Balance - Clearing Account, or GLA 5540-Retained Earnings, at year-end based on the Shared Fund Indicators in the D22 Descriptor Table.
